FROM: Raul Valdivia, Ph. D., Chief Engineer
City of Chicago Department of Public Health

SUBJECT: Notification of Permit Application - Lindsay Light II Site

DATE: — 4/7/2014 519-523 x1. Pestigot.

Pursuant to Condition 10(a) of the Right-of-Way Agreement dated September 27, 1999, this is to inform you that a permit has been applied for with the City of Chicago Department of Transportation to conduct subsurface activities at the subject right-of-way. The applicant has contacted this Department and has reviewed additional information regarding potential contamination at the subject site (see attached form DOE.ROW.01).

If you have any questions, please do not hesitate to call me at (312) 744-5711.

DEPARTMENT OF PUBLIC HEALTH
CITY OF CHICAGO

FORM NO. CDPH.ROW.03 (STREETERVILLE Right-of-Way)

Notice is hereby given that the site you have requested a permit for is recorded with the City of Chicago Department of Public Health (CDPH) as potentially having environmental contamination on the site and adjacent right-of way. This environmental contamination could present a threat to human health and safety in connection with work performed at the site, or in the adjacent right-of-way, if proper safeguards are not employed.

A file containing detailed information regarding the aforementioned environmental contamination is available for review at CDPH at 333 S. State St., Room 200, Chicago, Illinois 60604 during normal business hours (8:30AM-4:30PM, Monday through Friday). Contact (312) 745-3152 for an appointment. This file must be reviewed and the remainder of this form completed before the permit can be issued if the ground is exposed or excavated. **Please note that for some locations, additional health and safety procedures may be required by law.**

Please complete the following:

I have reviewed and understand the documents, maintained by CDPH, regarding environmental contamination of the site and adjacent right-of-way. Further, I will ensure that all work at the subject site and adjacent right-of-way, and any monitoring required including but not limited to radiation monitoring, will be performed in a manner that is protective of human health and the environment and in compliance with all applicable local, state, and federal laws, rules, and regulations, especially those pertaining to worker safety and waste management. I will ensure that the results of any radiation monitoring and/or surveying conducted shall be provided to the CDPH and the United States Environmental Protection Agency **within two (2) weeks of their completion.** If any elevated levels of radioactive material are detected, I will immediately contact the United States Environmental Protection Agency at (800) 424-8802.

Applicant Name (print): Amy Mayer - Authorized Agent Signature: [Signature]

Site Address and Work Location (Describe exact site location and attach map): 519-523 N. Peabody

Subject: 515 Peshtigo - Driveway Pavement Repairs

Good Morning Verneta:

I received a call from Related Midwest that they have some minor pavement repairs in the drive area noted on the attached drawing. This sidewalk area was screened as part of the original construction. Specifically, the area was screened after removal of the concrete and before placement of gravel subgrade for construction of the current drive. No radiological contamination was originally observed in the proposed work area and the current repair work is going to be limited to the removal of paving and minor regrading of the subgrade beneath. Specifically, this work will not result in the disturbance of unscreened fill soil (i.e., work will be restricted to the clean subgrade and/or within the upper 18-inches of material that has already been screened).

Please advise us of your concurrence that screening is not required and/or let us know if you have any additional questions. Thank you very much for your assistance.

Sincerely,
Steve Kornder, Ph.D.
